Series Thiny Snake ON

SURFACE MOUNTED

Thiny Snake ON is a solution for those who enjoy playing with the form. The connection system makes it possible to bend the light fitting in different directions, which provides many possibilities of creating the interior's character allowing the luminaire itself to become an interesting architectural feature. Thiny Snake ON modules can be connected and diversified in terms of colour.

Basic and complementary lighting. It will work perfectly at establishments such as clubs, galleries, and hotels, but also as lighting for the office and home.
